Terrain information

You are not allowed to ride on the railway!
But you can cross everywhere where tracks leads you over the rails. At some railway crossings are barriers (Earth wall or gully)

Some connections without track or path are allowed to ride (orange on the map). Only marked where the location in the terrain is not clearly visible.

Two roads in the western part of the map cross the area from south to north-west. They are closed, but take care for possible vehicles (agricultural work, tractors, ...).
